  • Provost Search Committee, 20 min.

    A. Mathios introduced himself as Chair of the Search Committee. He was present at the meeting to discuss search for Provost. He was present at the GPSA meeting to hear more about what the graduate students desire in the next Provost. This search is a first of its kind...
full-blown international search, open to inside as well as outside candidates whereas, in the past, the Provost has always been chosen from inside candidates. C. Wong is on the search committee as well. Since it is a closed search, the members of the committee cannot talk about individual candidates. The search is kept confidential to get a deeper pool of applicants. The committee is in the process of deciding the final list of candidates and developing a list of questions.

A. Mathios was asked what kind of metric would be used to assess if individual will and foster academic excellence. He said they would look at past actions and proven experience of individual. The committee meets with several candidates, asks questions, but ultimately the University President gets to choose Provost. The Committee will support the decision and provide background information.

• Towards New Destinations (TND), 15 min.

U. Smith introduced himself as past student and SA president. He shared a lot has been going on regarding shared governance and participation of all assemblies in decision-making policies. He went over University Diversity Officers and Sara Hernandez will be the point person for graduate students.

Presented a quick review of the TND. Its core principles will be composition, inclusion, engagement, and achievement. He then went over how to create TND initiatives that include approval by deans/VPs/UDC, utilization of appropriate committee to further develop goals, look for opportunities to collaborate, and finally publicize results. There is an evaluation method for initiatives with several criteria. The Office offers support tools such as refining and training opportunities to ensure initiatives are successful.

He was asked how the assembly could play their part to promote any initiatives? He answered graduate students can be asked sexual orientation questions on admission applications so the university has information on such topics prior to students showing up at school. Submit initiatives for review by July 1st.
