

agenda

10/5/15

Attendance stuff

Waste:

- Samsuda*: go over 10/3 meeting points (specified goals, design updates, grant updates)
- field-trip to recycling/composting plant
- representatives to attend dining committee (mondays 5pm)
- life cycle assessments for birchwood plasticware vs. compostable plasticware vs. plastic containers vs. compostable containers
- data and research on waste system case studies & *design* case studies that facilitated sustainable waste — accumulation of this data is important to design and to resolution-writing

Plastics:

- identify the goal/purpose/problem
- plan
- contacts, possible groups to collaborate with (who else is working on plastic initiatives?)

Infrastructure:

- projects of interest (hand-dryers)
- collaborative groups
- funding sources (Infrastructure Fund, Technology Infrastructure)
