Whereas, the GPSA created the Special Grants Committee by passing [Resolution 9: Special Committee for the Disbursement of Special Grant Funding](#) in FY2024, whose charge was to solicit, review, and recommend funding for grants aimed towards advancing graduate and professional student interests at Cornell University.

Whereas, the Special Grants Committee solicited 58 grant submissions from relevant stakeholders that serve graduate and professional students, such as University departments, offices, graduate and professional student organizations, byline-funded organizations and community groups.

Whereas, the Special Grants Committee, through the collective efforts of its members, scored and reviewed all 58 received grants using the following criteria:

- 1) **Plan:** How detailed is the timeline for implementing the proposed event(s)? Are the event(s) well-reasoned and supported by grant materials?
- 2) **Accountability:** Does the grant clearly state who is responsible for implementing the proposed event(s)? Did the sponsor detail steps for grant supervision and implementation?
- 3) **Impact:** Will the proposed event(s) meaningfully impact the well-being of graduate and professional students throughout Cornell?
- 4) **Need:** Does the grant highlight a need, lack of support or otherwise unaddressed issues for graduate and professional students? And will the proposed event(s) address this need?

Graduate and Professional Student Assembly

34 **Whereas**, the Special Grants Committee, through the majority agreement of its members,
35 curated a list of reviewed grants which, when funded partially or in-full, would best improve
36 graduate and professional student well-being at Cornell.

37

38 **Whereas**, grants from organizations such as the **Graduate Arab League** (GAL; grant #54)
39 would help address the critical issues facing Arab graduate students at Cornell, including deep
40 grief, fear, and isolation while navigating a uniquely difficult academic climate through the
41 creation of a culturally grounded, non-activist, psychologically safe space for joy, community,
42 and belonging.

43

44 **Whereas**, grants from organizations such as **JUGATAE** (grant #28) would establish an
45 inclusive outdoor space for graduate and professional students to participate in academic
46 collaboration, social connection, and community-building through the purchase and installation
47 of picnic tables in the Biology Quad with the support of the Cornell Grounds Department.

48

49 **Whereas**, grants from organizations such as the **Society for Advancement of**
50 **Chicanos/Hispanics and Native Americans in Science** (SACNAS; grant #47) would directly
51 uplift graduate and professional students by creating spaces where they can find community,
52 develop as scientists, and build professional networks both within and beyond Cornell through
53 the hosting of professional workshops and monthly wellness socials.

54

55 **Whereas**, all other grant funding recommendations under the *Community Building* category
56 from the Special Grants Committee provide opportunities to establish, maintain, and grow a
57 sense of community and would improve the well-being of graduate and professional students
58 across Cornell.

59

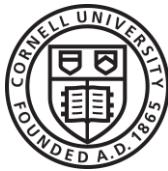

60 **Whereas**, the Special Grants Committee completed its charge on January 26th 2026 by
61 presenting a final recommendation of reviewed grants to fund, either partially or in-full, to the
62 GPSA.

63

64 **Be it therefore resolved**, the GPSA Appropriations Committee earmark \$75,431.96 from the
65 GPSAFC reserve account for the purpose of supporting grants #4, #12, #13, #19, #25, #27, #28,
