

1	EA R7: Advancing a Comprehensive Transportation Plan
2	for the Ithaca Campus
3 4	<i>Abstract:</i> This resolution calls upon Transportation Services to advance a Comprehensive Transportation Planning Study.
5 6	<i>Sponsored by:</i> Kristie Mahoney, College of Human Ecology Representative; and, Laura Johnson-Kelly, Employee Welfare Committee Chair and Library and Museum Representative
7	Reviewed by: Employee Welfare Committee, November 9, 2017
8 9 10	<b>Whereas,</b> the 2008 Cornell Master Plan for the Ithaca Campus articulated 10 key objectives related to Transportation and Circulation and detailed several enhancements to campus streets; and
11 12 13	<b>Whereas,</b> many of the objectives set forth in the 2008 Cornell Master Plan have not been advanced in total while the campus population is increasing and available parking is decreasing; and
14	Whereas, the last known intra/inter campus travel survey was conducted in 2005; and
15	Whereas, the last comprehensive transportation study occurred in 2008 (t-GEIS); and
16	Whereas, in 2013 the GPSA adopted Resolution 20: A resolution regarding housing,
17	transportation, and family services; and
18 19	<b>Whereas,</b> in 2015 the SA adopted Resolution 55: Improving Bicycle and Pedestrian Strategy at Cornell; and
20 21	<b>Whereas,</b> in September 2017, Transportation Services released an RFP for a Parking Optimization Study to be completed by Fall 2018; and
22 23	Whereas, due to vehicle/pedestrian/bicycle crash data, a number of campus intersections have been identified as high conflict zones; and
24	Whereas, during the November 17 meeting, the Campus Planning Committee restated their
25	vision for and support of integrated transportation planning for the campus, and
26 27	Whereas, staff and retirees continue to voice transportation, parking, and campus access concerns to, from, and around the Ithaca campus.
28 29 30 31	<b>Be it therefore resolved</b> , the Employee Assembly calls upon Transportation Services to advance a Comprehensive Transportation Planning Study beginning in Spring 2019 for the Ithaca campus, including the city of Ithaca and neighboring counties within the employee commuting range, that holistically approaches transportation, circulation, parking, safety and campus access.
32 33 34	<b>Be it further resolved,</b> the Employee Assembly will partner with Transportation Services through the Transportation Taskforce to actively support the study and encourage employee and retiree engagement and feedback to ensure a thorough assessment of employee concerns.

37	Be it further, resolved, the results of the study will be shared initially with the Employee		Deleted: inally
38 39	Assembly and then publically with the employee community in 2020, and any subsequent recommendations reviewed by the Employee Assembly.		
40	Be it finally resolved, the Employee Assembly requests a moratorium on the reduction of the		
41 42	total number of parking spaces, including the number of free spaces, until the study is completed and a campus circulator shuttle is in operation.		
43	Adopted by Vote of the Assembly (21-0-0), November 28, 2017,		Deleted: (),
