

Resolution 62: Course Statistics at Cornell

Abstract: Requesting Registrar Data: Retake Course Statistics at Cornell

Sponsored by: Amida Akpan, Alessandra Liberty Good, Niles Hite, Noon “Stellar” Son

Reviewed by: Academic Policy Committee, 02/03/2024

Type of Action: Recommendation

Originally Presented: 02/03/2024

Current Status: New

Whereas, if a course is repeated, the official transcript includes both grades from both attempts of completing the class.

Whereas, if a course is repeated and a passing grade is distributed to the student enrolled in the course, the latest attempt does not replace the first attempt on the official transcript.

Whereas, if taken for a letter grade, both grades from each attempt to complete the class are included in the calculation of the GPA.

Whereas, repeating a course allows both grades to impact GPA, but only the latest grades count towards fulfilling Cornell University’s graduation requirements.

Whereas, for students, a failing grade in a required class means the academic requirement remains unmet, yet the grade still contributes to their Major GPA and cumulative GPA.

Be it therefore resolved, the number of current students in the College of Engineering who have retaken or retaken a course be disclosed.

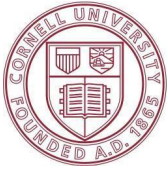

Be it further resolved, the number of current students in the College of Arts and Sciences who have retaken or retaken a course be disclosed.

Be it further resolved, the number of current students in the College of Agricultural and Life Sciences who have retaken or retaken a course be disclosed.

Be it further resolved, the number of current students in the College of Architecture, Art, and Planning who have retaken or retaken a course be disclosed.

Be it further resolved, the number of current students in the Charles H. Dyson School of Applied Economics and Management who have retaken or retaken a course be disclosed.
