

Resolution 78: Approval of the Infrastructure Fund Commission's Recommendations

Abstract: This resolution provides for the disbursement of roughly \$53,000 across the four project applications submitted to the Student Assembly Infrastructure Fund Commission.

Sponsored by: Nicholas Maggard '26

Type of Action: Internal Policy

Originally Presented: 05/02/2024

Current Status: Conveyed to the Dean of Students

Whereas, the Student Assembly Infrastructure Fund Commission has received four applications for the allocation of the roughly \$53,000 in the Fund's Disbursement Account.

Whereas, the \$20,000 proposed allocation to Cornell University Sustainable Design will fund the creation of an alpha prototype, and partially a beta prototype, of modernized bus shelters on the Cornell Ithaca campus.

Whereas, the \$13,650 proposed allocation to the Office of Student Government Relations will fund heat lamps at bus shelters to provide comfortable places to wait for buses in cold environments.

Whereas, the remaining-balance-allocation will fund features that enhance the Cornell Ithaca campus.

Be it therefore resolved, the sum of twenty thousand dollars (\$20,000) be transferred from the Infrastructure Fund Disbursement Account to Cornell University Sustainable Design for the manufacture of their prototype bus shelter.

Be it further resolved, the sum of thirteen thousand six hundred and fifty dollars (\$13,650) be transferred from the Infrastructure Fund Disbursement Account to the Student Assembly Office of Student Government Relations for the implementation of heating lamps at bus shelters.

Be it further resolved, the remaining balance of the Infrastructure Fund Disbursement Account be earmarked for the implementation of benches, trees, bike racks, and other features to be selected jointly between the SAIFC Chair, the Undergraduate Student-Elected Trustee, the President-Elect of the Student Assembly, and the Office of the University Architect. Such funds shall not be rolled back into the investment account.

30 **Be it further resolved**, the Office of Student Government Relations, within seven (7) days
31 following passage of this resolution, shall be required to submit to the SAIFC Chair, further
32 information regarding their application. Failure to submit adequate information will result in
33 their allocation being revoked by action of the SAIFC Chair.

34 **Be it further resolved**, Cornell University Sustainable Design shall be required to submit a
35 report within sixty (60) days following the transfer of funds on how SAIFC funds are being used.
36 This report shall be provided to the SAIFC Chair elected by the 2024-2025 Student Assembly.
37 Should such office be vacant, the report will be provided to President of the Student Assembly.

38 **Be it finally resolved**, this resolution shall take effect upon approval of the Dean of Students.

39 **Respectfully Submitted,**
