- 7a. Why do you believe you haven't visited the food pantry?

Survey Data on Swipe out Hunger

Student testimonies:

“Did not know it existed”

“The number of meals given away can be quite restrictive. I sometimes had to make the choice to not eat for one day to save a meal for a more important time”

“Its not addressing the issue that food is really expensive on campus. Its a temporary fix.”

Survey Data on Helpful Guidance

5 - 5. Where do you receive the most helpful guidance on essential resources? (check all that applies)

Survey Data on Sense of Belonging

Student Testimony on Basic Needs

“When I got to Cornell I did not have the financial support... I didn't have a meal plan my freshman year because I couldn't afford the insurance and only ended up receiving one when I became malnourished and anemic so my doctor requested me to have one...I had an emotionally hard time dealing with that, along with school and family stress, and would end up feeling hungry a lot of the time... The resources right now help in some ways but have proven ineffective for me.”

“I have had an extremely difficult time finding affordable housing at Cornell. The housing office is not helpful at all in this regard and barely provides students with resources for finding housing (on or off campus). I almost became homeless due to this and would've greatly benefited from a space that would have connected me with the proper resources and tools to find better housing.”

“I am battling a number of health issues at the moment, and if it wasn't for Medicaid, I'd be heavily in debt with all of the bills I had to pay and deal with. People NEED to know about this service.”

“SNAP saved me quite literally from starving and being broke”

“My experience has been that resources/help are available but I've had to go through layers of bureaucracy and digging for info just to get them. It is discouraging to have to do this just to get help.”

“I wish there was a help desk where I could be honest about my issues and receive help and guidance without judgement. I would prefer it be student- lead, instead of adults.”

Survey Data on Centralizing Resources

14 - 14. Would establishing a space on campus encapsulating essential need resources and providing informed support from students in collaboration with field experts be helpful for you?

Our Vision: Basic Needs Center

- A centrally located, physical space to address student basic needs
 - food, housing, health insurance, job employment, mental health/wellness, and financial literacy resources
- A one-stop-center to help students navigate on and off campus resources
- Peer-to-peer support center run by student leaders (paid through federal work study)
- Similar vision of wellness center proposed to VP Lombardi by the SA Wellness Committee
