VI. Adjournment
The Committee voted to fund FARC (Financial Aid Review Committee) at $5.00 for the 2020-2022 Byline Funding Cycle.

The Committee was very happy to see that FARC seeks to use byline funding to financially aid students who could not otherwise afford to participate in an unpaid summer internship. Specifically, the Committee touched on its importance for International students, who may not be allowed to take compensatory jobs alongside an unpaid internship. The Committee was pleased to see that FARC continues to help students in emergency situations by providing financial relief for various pop-expenses that may arise during any number of emergencies, like a surprise plane ticket, to name one. The Committee would like to see FARC pursue all possible avenues of marketing and exposure for these grants and relief funds. With the understanding that FARC works in conjunction with the Financial Aid Office, along with each college individually, the Committee recognizes the difficulty in taking the lead on marketing or proliferation of these grants. The Committee would still like to see FARC put an increased amount of effort into spreading the word of these support systems. Ultimately, the Committee’s only issue stemmed from its deep approval of FARC and its mission.

The Committee fully supports FARC and is excited to work together to help more and more students through FARC’s grants.

The committee votes down from the highest amount proposed to the lowest, to give the group the advantage.

Rationale of the Committee

The Committee voted to fund the Student Assembly at $4.00 for the 2020-2022 Byline Funding Cycle.

The Committee recognized that the SA had been spending down a surplus, and that it is time for the SA to begin growing its byline allocation. The main point of contention regarded Special Projects funding. Committee members were happy to see the Special Projects fund grow, given its “Special” and “Emergency-based” nature, for groups that simply cannot incorporate some costs into an annual budget. But, the Committee pondered implementing stricter regulations with regard to Special Projects funding. Some thought that the increase in Special Projects funding would lead to arbitrary and “why-not” spending, when there are other viable sources of funds available on campus. The Committee still decided to give the SA a significant boost in funding and its full requested allocation. The Committee, overall, is appreciative of the SA’s work and its continued good use of its byline funding. It hopes to see the bulked Special Projects fund put to grand use.

Rationale of the Committee

The Committee voted to fund the Student Activities Funding Commission (SAFC) at $159.00 for the 2020-2022 Byline Funding Cycle.

The Committee fully supports the work that SAFC does to fund as many student groups as possible on campus. While the SAFC attempts to fill the total amount requested for all of our campus organizations, we recognized that there were significant gaps in the amount of money requested of SAFC and the amount of money that there were receiving form byline, approximately a one million dollar gap.

Currently SAFC uses strict administrative rules and spending guidelines to try and conserve money and not run deficits every year. These strict guidelines are not only a hassle for student groups, but they also make it so that student groups do not get all the money that they need and want. To address this issue, SAFC presented to The Committee a list of initiatives that they plan on enacting next year, in order to lessen the strict regulations, they are currently enacting. These initiatives include but are not limited to, opening the time frame to submit organization budgets from 3 weeks to 3 months so that organizations have time to organize and put together a comprehensive budget. They also planned on

* Because the total Undergraduate Student Activity Fee must be a round number, the actual disbursement amount to SAFC will be rounded up in an amount equal to the amount required to round the total Student Activity Fee to the nearest whole number. At the time of this document being drafted (before potential appeals) SAFC would receive an increase of $0.91 to make their actual allocation $159.90. Hypothetically, if the SA approves an appeal to alter the allocation amount of a different organization by a non-integer number, then this figure would change. For example, funding any other organization at $0.50 more would cause the rounding to instead only go up by $0.41, which would yield a figure of $159.41.
restructuring the tier system and will accept budgets on a rolling basis so that student organizations can more effectively spend their money.

SAFC predicts that these changes in total will cost them about $900,000 which is approximately equal to the amount that they are denying to student groups.

The Committee is confident that as these changes are enacted the additional $61 that SAFC has been awarded will be able to bridge the current gap in requests and actual funding, that leaves many student groups frustrated and discouraged. The Committee looks forward on working with SAFC in the coming semester to create effective strategies to implement and uphold the proposed initiatives.

S.A. Resolution #19
Creating Internal Elections Rules

Sponsored by: Nick Matolka ‘21

Whereas, the Student Assembly needs to create rules for its internal elections;

Be it therefore resolved, the following be added to the Standing Rules:

Section 9: Internal Elections

A. Rule 1: With one week’s notice, the VP of Internal Operations will notify Assembly members of a position that needs to be filled.

B. Rule 2: Assembly members will have until the Sunday night prior to internal elections to submit an application. For a position, an Assembly member will be asked to answer the following two questions:
   1. Why do you want to serve in this position?
   2. Do you have the time to effectively commit to this role?

C. Rule 3: Assembly members will be aware of applicants by Monday night. They will be able to have access to the answers of the applicants’ questions. The means of viewing this information is at the discretion of the VP of Internal Operations.

D. Rule 4: Following the release of the applicants’ questions, Assembly members can send their statements of an applicant until the Wednesday night prior to an internal election. Statements may only be positive and in support of a candidate. The statements will be submitted via Google Form. Only the President, Vice President, and Parliamentarian of the Student Assembly will be able to view submissions.

E. Rule 5: Statements will be released on Wednesday night for the full Student Assembly to view. Statements will only be released if they positively reinforce a candidate. Each statement will be attached with the submitter’s name. A statement will be vetted if they impose an ad hominem attack on an opposing candidate.

F. Rule 6: In the case of an Assembly member having an egregious claim that should disqualify a candidate, they should submit the claim via Google Form to the President, Vice President, and Parliamentarian. It is at the discretion of the President, Vice President, and Parliamentarian in how to proceed. At a minimum, they are required to explain their choice to the submitter. If the disqualifying claim is released, the submitter will not be identified.

G. Rule 7: An internal election will proceed as follows:
   1. Each candidate will be given three minutes to talk. It is a time to reiterate their answers and add any additional material.
   2. Following all of the candidates’ speeches, the President will read aloud all of the claims submitted and approved.
   3. Following the reading aloud of claims, deliberations will go on for at maximum fifteen minutes. During this time, Assembly members can solely reaffirm a candidate of choice, or reaffirm a statement made by a candidate of choice. At no time can an Assembly member engage in in ad hominem attacks on any
candidate or intentionally make false statements against any candidate. In
addition, an Assembly member cannot add additional information that hasn’t
been stated during the meeting. If an Assembly member violates this rule, the
President, Vice President, and Parliamentarian reserve the right to excuse the
Assembly member from the internal election and they will not be allowed to
vote.

H. Rule 8: The sequence of events illustrated must take place prior to an internal election. In
the case of a vacancy appearing that needs immediate filling via internal elections, the
timeline should be modified to fit accordingly.

I. Rule 9: Each candidate will document and release a log of all Assembly members that
they meet with in lobbying for a position. Each candidate will document who they met
with, the length of the meeting, and the material discussed. They will be released via the
medium of choosing of the VP of IOPS.

J. Rule 10: This process will also be implemented during the mass internal elections at the
end of the school year.
